Coffee in Canisters by the Case

(Six 14-oz canisters/case)

On average, these composite cans contain 50% total recycled content and 35% total post-consumer recycled content. The paperboard side wall is composed of 100% recycled fiber, 90% of which is post-consumer. In the U.S. and Canada, the manufacturer’s paperboard mills are certified to multiple forest products certifications schemes, including the Forest Stewardship Council and the Sustainable Forestry Initiative. The steel ends are produced on average with 25% recycled content. The unique composite can process allows them to incorporate these high levels yet be acceptable to the food industry. In Manatee and Sarasota counties, put empty cans in your “mixed” bin.

Item	Product Name	Roast <i>light >>>dark</i>	Price	Grind	Quantity	Total Owed
14101	Organic Proud Mama	 Full City	\$48.00	Drip Only!
